ABOUT ME

I am a **teamwork-oriented** developer, always trying to create innovative solutions. With proficiency in **PHP**, **Java**, **Swift&SwiftUI** development, and **full-stack web** experience, I excel in different environments, thriving under pressure to deliver optimal outcomes. My commitment to **collaboration** and technical expertise position me as a valuable asset in achieving project success.

WORKING EXPERIENCE

App Developer (Swift, SwiftUI, Various AppleKit) 2023-2024
Apple Academy - Apple's developers academy

As App Developer, my focus was to create Swift-based **applications** to solve specific **Users** needs, enhancing **user friendly experience**, **interface** and **functionalities**.

App Developer & Analyst (PHP, Laravel, Symfony) 2024-CURRENT
Accenture - Technology&Consulting Company

As an App Developer, I **implemented** different **user-friendly web apps** for managing various scenarios, showcasing my ability to translate client needs into **practical** and **efficient solutions**.

HIGHLIGHTED PROJECT
