ABOUT ME

I am a teamwork-oriented developer, always trying to create innovative solutions. With proficiency in Java, iOS&MacOS development, and full-stack web experience, I excel in different environments, thriving under pressure to deliver optimal outcomes. My commitment to collaboration and technical expertise position me as a valuable asset in achieving project success.

WORKING EXPERIENCE

Lead Java Developer (Spigot)   2021-2022
TheOutlaws - Game server

As a Teamleader, my focus was on delivering Java-based add-ons for Spigot gaming servers, enhancing user experience.

Web Application Developer   2022
CoastCharter - WebApp for private

As a FullStack Developer, I designed and implemented a user-friendly web app for managing boat trip reservations, showcasing my ability to translate client needs into practical, efficient solutions.
